

CALL FOR AN IT TEACHER

As a Volunteer IT Teacher, your primary focus is to provide computing classes to our students, aged 11 to 16. From introduction to basic computer use to more specific computing projects, your mission is to break the digital gap and allow the young generation to find and use online resources properly, to research and study on a computer, and for the older students to develop IT skills they will need in their future professional career. You will also offer IT support as day-to-day troubleshooting is required on campus, if you can.

RESPONSABILITIES

- * Teach computing classes to students aged 11-16
- * Carry out IT training to KSV staff
- * Take part in KSV's activities and events
- * Set an example to the students and act as a role model
- * Be a responsible ambassador for our organization
- * Be passionate and enthusiastic!
- * Maintain strong relationships with existing donors and ensure they receive appropriate recognition

SKILLS AND EXPERIENCE REQUIRED

- * Minimum commitment of 1 year
- * Good theoretical and practical knowledge of Computer Sciences
- * Good software and hardware knowledge
- * English fluency
- * Patient and problem-solving
- * Patience, punctuality, work ethic, and maturity
- * Ability to work well with others
- * Strong interest in community projects, education and child development

BENEFITS OF VOLUNTEERING WITH US

- * Gain valuable skills and a unique NGO experience in India
- * Be part of an amazing community that aims at making a positive change
- * Induction, training and on-going support from our team members
- * Get a reference and a certificate upon completion of your mission
- * Food and Accommodation: volunteers live at the Volunteer Area based on campus. We offer eco-friendly accommodation, and 3 vegetarian meals per day
